

To whom it may concern

we have recently completed building our dream holiday home in spring hill Florida. It is a luxury 4 bedroom single story 3000sq ft home on a golf course lot with pool and spa the work was undertaken by Ian Flanagan of MPH CUSTOM HOMES as you may imagine it was a very stressful time or so it should have been as we are based in England UK.

HOWEVER this problem was greatly alleviated by Ian and his staff at MPH Ian as director of the company was superb through every step of the build process, regularly sending details and pictures by email. Moreover this companies attention to detail and overall pride in their work has resulted in an outstanding HOME being completed for us on time and budget and as a result of this my family and I would not hesitate to recommend MPH CUSTOM HOMES to anyone unreservedly .

yours sincerely
